

January 5th, 2018

Dear Valued Customer,

We would like to inform you that the Cobra 350 product line will be discontinued effective July 1st, 2018.

The decision to stop supply of a product is not one that we at Omron Adept take lightly. The Cobra 350 line was first introduced in 2005. Discontinuation has become necessary due to the fact that critical components have become obsolete.

The last available purchase date for Cobra 350 robots is **July 1st, 2018**. We will continue to support our existing customers with spare parts for a period of 5 years from the date of discontinuation.

Please see the following notification details to understand the impact of this discontinuation. Your Omron Sales representative can help you select a suitable alternative product, such as our Cobra 450.

Don't hesitate to contact us for assistance in planning for your long-term robotics and support needs. Omron Customer Service and Service Sales can be reached through <http://www.ia.omron.com/>.

Sincerely,

Gerry Vannuffelen
Product Line Manager - Fixed Robots
